

Making it easy for **educators and coaches** to have greater impact, we provide professional tools for you to create a more **interactive** and **collaborative** learning experience. With the AmphiHQ platform, **engage your learners** to submit content, review others' and be reviewed through your own customized space online.

Create **participation** and **engagement** online. Leverage the power of social media while maintaining **privacy** and **control** of interaction.

Facilitate Learning

Use AmphiHQ as a space for effective practice and reflection. Provide expert feedback, or enable peer review to get your learners to develop their critical thinking.

Expand Your Reach

Add to your toolbox by creating innovative activities for your learners - expanding beyond face-to-face time by engaging them online.

Gain Efficiency

Forget email, shared folders and multiple processes. With AmphiHQ you can track submissions and organize review processes online all in one place, simply and securely. Anywhere, anytime.

Go Video

Video is a powerful tool for collaboration, reflection and evaluation - seeing oneself and others in action. On AmphiHQ, have your learners submit videos for you or others to review.

Our Services

AmphiMedia provides the **technology** and **professional services** for you to enhance your training and development offering with our innovative online platform.

The AmphiHQ technology offers you a broad range of tools that are easy to manage, scalable and customizable to your needs. We host the platform for you and support you with personalized direct technical assistance.

We also provide the following professional services:

- **Instructional Design Consulting:** Developing a new online/mobile strategy? Work with our experienced team in training, coaching and e-learning to develop the right concept and content for your program.
- **Platform Customization:** Want additional functionality or to link with your existing systems? Engage our technology team to develop the applications that meet your requirements.
- **Project Management:** You don't have the time to manage your online program? Turn to us to manage the activities and interface with your participants.

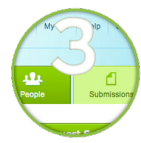

AmphiHQ allows you to quickly and easily create an Internet platform for your programs.

1 Design activities to engage participants in action and reflection.

2 Have your participants submit text, documents, video or answers to survey questions.

3 Arrange peer review, expert feedback or self-reflection with private and controlled sharing.

4 Track the activity, create reports and manage your communication.
